

PUTTING THRIFT PUNCH
INTO VALENTINE DAY

Putting thrift into Valentine Day, February 14, is the latest objective of the government's war saving strategy. Substitute the Thrift Stamp for the little valentine and let the big War Savings Stamp bearing the benign countenance of Benjamin Franklin carry your greeting instead of the usual big box of finery is the urge of Thrift Stamp workers.

There is no desire, say the officials, to take away any sentiment from this age-old custom of sending valentines, but rather to put into it an element of strength which will aid in perpetuating the custom with Young America.

"As for the comes, we have no remedy or substitute," declared Samuel Hubbard of the War Savings Division. Thrift Stamps are not an antidote for them nor will Thrift Stamps aid in encouraging this phase of valentine day observance.

"MUST NOT LOOK BACK"
SAYS SPEAKER CLARK

"It goes without saying that there must be another big bond issue," says Speaker Champ Clark of Missouri. "Having put our hands to the plow we must not turn back. We cannot afford to. Because while the world war is really over, it is not technically ended until President Wilson issues a proclamation to that effect. We still have a huge army overseas and while it should be brought home as soon as ships can bring our soldiers back, until they get back, they must be fed and clothed and otherwise cared for. It would be an everlasting shame not to do that. So people should subscribe for the impending loan and purchase War Savings Stamps as readily and liberally as they subscribed for past loans. It's for the support of our soldiers and nothing is too good for them."

Merchants to Aid Thrift Move.

The period between Lincoln's birthday anniversary, Feb. 12, and the anniversary of the birth of Washington, Feb. 22, will be observed throughout the United States as a means of promoting thrift. Stores will arrange attractive window displays using the pictures of Lincoln and Washington with that of Benjamin Franklin as American exponents of thrift. Merchants in Twelfth Federal Reserve District are planning to aid the thrift campaign in this manner.

Daily Thought.

Mind is a magnet, that which it continually thinks it will draw to itself. Keep the mind on strength, power and love and you will draw strength, power and love to you.—P. Mulford

MICKIE SAYS

EMPTYIN' THE WASTEBASKET
WOULDN'T HAVE TO BE DID
NEAR SO OFTEN IF SOME OF
THEM BOOBS THAT'S TRYIN'
TO GYP THE BOSS OUTEN A
LOT OF FREE ADVERTISIN'
WOULD JEST CUT OUT SENDIN'

ARE YOU
GUILTY?

A FARMER, carrying an express package from a big mail-order house was accused by a local dealer.

"Why didn't you buy that bill of goods from me? I could have saved you the express, and besides you would have been patronizing a home store, which helps pay the taxes and builds up this locality."

The farmer looked at the merchant a moment and then said:

"Why don't you patronize your home paper and advertise? I read it and didn't know that you had the stuff I have here."

MORAL—ADVERTISE

FERTILE GARDEN
MOST DESIRABLE

Dead Vines, Cabbage Stalks and
Refuse Should Be Gathered
Up and Burned

PLAN FOR PROPER DRAINAGE

Use Tile Drains Spaced Every 10 to 20
Feet, or by Open Ditches—If
Soil is Heavy, Apply Lime
Just After Plowing.

(Prepared by the United States Department of Agriculture.)

The garden should always be cleaned up in the autumn as soon as the crops are out of the way, and the area seeded to some green crop such as winter oats or rye. If this has not been done the dead vines, cabbage stalks and other refuse should be gathered at once and burned. This material is liable to harbor insects and contain diseases injurious to garden crops, and no chances should be taken with it.

Provide Good Drainage.
If the area in the garden is not well drained this should be corrected by using tile drains spaced every 10 to 20 feet, or by open ditches, or by bedding up the soil, leaving the space between the beds for drains.

The ground should be plowed as soon as possible. If hard freezing is sure to occur after the plowing is done it does not matter if the ground is a

In the Upper Picture, an Unightly Back Yard After Being Cleaned Up and Planted to Irish Potatoes—Lower Picture, the Same Area Later in Season—Beans, Chard and Cabbage Have Followed the Potatoes—Lime Beans Have Hidden the Board Fence.

little wet. It is particularly desirable to get the plowing done before freezing weather is past, as the alternate freezing and thawing kills hibernating insects, as well as loosening up the soil, breaking down clods and making the soil generally more loose and friable. Soil that has been plowed or spaded, moreover, will dry out and become workable sooner than that not so treated.

Lighten Heavy Soil.
If the soil is at all heavy it is advisable to make an application of air-slaked lime as soon as the plowing is done. The lime should be applied at this time so as to become thoroughly mixed with the soil before the manure is applied. Manure and lime should not be applied at the same time, as the lime will cause loss of the nitrogen in the manure.

To produce satisfactory crops of vegetables the soil must be kept in a high state of fertility. It is an excellent plan to apply stable manure to the freshly plowed or spaded soil, this to be worked in either with a disk harrow, or in cases where hand labor is employed, with a hoe or rake. This should be followed later on by a surface coat of well-rotted manure, applied about the time the crops are planted.

PLACE CONFIDENCE IN SOIL

Land Will Do Just What Farmer Will
Let It in Way of Producing
Various Crops.

Confidence in the soil means much for good farming. If you believe your soil will respond to good tillage you are apt to trust it that far. If you believe your soil will pay for the extra expense you are likely to make greater investment. But after all it is self-confidence, for the soil will be just what you let it in the way of production.

SEED POTATOES ARE SCARCE

If Home-Grown Tubers Are Kept Cool
and Dry They Will Do to Plant
—Prevent Wiltling.

All varieties of seed potatoes are scarce and much higher in price than usual. If the home-grown seed tubers are kept cool and dry in a well-ventilated cellar, and try to plant. The main point is to keep them firm of flesh to prevent wiltling.

SALE OF ESTRAY ANIMAL

State of Utah, County of Iron, City of Cedar.

I have in my possession the following described stray animal, which if not claimed and taken away, will be sold at public auction to the highest cash bidder at my corral in Cedar City, on Saturday, the 18th day of January, 1919, at the hour of 2 p. m., to-wit:

One roan, age 2 years, branded CL on left hind, marked under half crop from right ear, under slit in left.

Said animal was taken up by me in said Cedar City on the 6th day of January, 1919.

JOHN MACFARLANE,
Poundkeeper for Cedar City, Utah.

NOTICE TO WATER USERS

State Engineer's Office, Salt Lake City, Utah, Jan. 10, 1919.

Notice is hereby given that Joseph H. Hunter, of William C. Murie, whose post office address is Cedar City, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by Session Laws of Utah, 1909, 1911 and 1915, to appropriate eight-hundred (800) of a second-foot of water from Pine Spring Branch and Balsam Spring Branch, in Iron County, from the northwest corner of section 22, Township 36 South, Range 10 West, Base and Meridian, Pine Spring Branch, 19 deg. 5 minutes E. 1940 ft. a Balsam Spring is S. 58 deg. 45 min. 1910 ft. The water from the two springs will come from a point S. 77 deg. 30 min. E. 1491 ft. from the north corner of said Sec. 29, from where the co-mingled water will flow down a natural channel for a distance of 100 ft. and there used for domestic purposes. This application is designated in the State Engineer's office as No. 7842.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate, accompanied with a fee of \$2.50, and filed in this office within thirty (30) days after the completion of the publication of this notice.

G. F. MCGONAGLE,
State Engineer.

STATE LAND NOTICE

United States Land Office, Salt Lake City, Utah, January 18, 1919. To Whom it May Concern: NOTICE is hereby given that the State of Utah has filed in this office lists of lands, selected by the said State, under section 6 of the Act of Congress, approved July 16, 1894, as Indemnity School lands, viz. Serial 023523, N $\frac{1}{2}$ W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 34, T. 40 S., R. 7 W., S. 1 Mer. Copies of said lists, so far as they relate to said tracts by descriptive subdivisions, have been conspicuously posted in this office for inspection by any person interested and by the public generally. During the period of publication of this notice, or any time thereafter, and before final approval and certification, under departmental regulations of April 25, 1907, protests or contests against the claim of the State to any of the tracts or subdivisions hereinbefore described, on the ground that the same is more valuable for mineral than for agricultural purposes, will be received and noted for report to the General Land Office at Washington, D. C. Failure so to protest or contest, within the time specified, will be considered sufficient evidence of the non-mineral character of the tracts and the selection thereof, being otherwise free from objection, will be approved to the State.
